Primo Scarf®, knitted in Tango
by Universal Yarn, Inc.

Easy

Materials:
2 balls of Tango 50% Super Wash Merino, 50% Acrylic, 22 yds per 50g.
Note: This pattern also works in Tango Multi and Rozetti Yarns Stella.
Color shown #558.
US Needles sizes from 1 to 3.
Gauge: See explanation below for this unusual yarn.
Note: Choose needles with points that will easily pierce the tape yarn; you will not be wrapping the yarn around the needle with this method. Using too large a needle will distort the tape and make pulling the new stitch through more difficult. The fullness of the ruffle is controlled by the distance between the first piercing and the next. Smaller distances create smaller stitches and smaller ruffles.

See photos in Techniques to Tango, Instructions for knitting with Tape yarn, also available on the web site.

Distances between 1” and 1½” are suggested, although it is more important is to be consistent with whichever length you choose. We encourage experimenting with the distances and edges! It is also important to be consistent with the amount picked up on the needle. Pick up too little and the tape might be damaged, pick up too much and it is difficult to pull back through.
The scarf shown here is made in garter stitch (knit every row). Knitted from the bottom to the top for each side to hang gracefully with the ruffles down.
Using a needle which allows you to pick up the new stitches through the edge of the tape, cast on 5 stitches, knit every row. Use 1 ball of yarn for each side. Place the stitches of the first side onto a stitch holder until the second half is complete.
Graft, sew with matching thread, 3 needle bind off or join with a crochet hook at the nape of the neck to complete the scarf.

Knit. Relax. Smile. Repeat!
